Moreover, there are units booked and waiting to sign the contract for 12 units and reputation for the Company as a developer of condominium projects, which has a high unit price and located in the center of the city

Moreover, the Company could elimination conflicts of interest that may occur between Mr. Supachoke Panchasarp and the Company.

7. Benefits which shareholders shall receive from the capital increase/share allotment

7.1 Dividend policy

The Company has a policy to pay dividend to its shareholders of not more than 50% of net profit after deducting corporate income tax of the separate financial statements and legal reserve, except that the Company needs to use such net profit to expand its business.

Currently, the Company has retained losses, and as a result, it is unable to pay dividend. If in the future the Company is able to clear accumulated losses, would be able to pay dividends to shareholders according to the law.

7.2 Rights of shares subscribers to receive dividend from operating results

Subscribers of new ordinary shares shall be entitled to receive dividend from operating results when the share subscribers are registered to be the shareholders of the Company.

8. Other details necessary for shareholders to approve the capital increase/share allotment

8.1 The issuing and offering as well as allotment of newly issued ordinary shares to the existing shareholders by way of Rights Offering may affect Control dilution and Price dilution as follows;

8.1.1 Control dilution

The shareholders who subscribe for the newly issued ordinary shares as per their rights will not be affected by their shareholding proportion. In the case that the shareholders do not exercise their rights to subscribe for the newly issued ordinary shares of the Company will affect the shareholding proportion to decrease 15.12%

8.1.2 Price dilution

Since the Company's securities are suspended, so there is no market price of the stock. As a result, price dilution cannot be calculated.

8.1.3 EPS Dilution

Earnings per Share Dilution can be calculated by using a formula as follows;

$$\text{Earnings per Share Dilution} = (\text{Earnings per Share before Right Offering} - \text{Earnings per Share after Right Offering}) / \text{Earnings per Share before Right Offering}$$

Which,

$$\text{Earnings per Share before RO} = \text{Net Profit (Loss) of the 4 most recent quarters} / \text{number of registered ordinary shares}$$

-Translation-

Net Profit (Loss) of the Company of the 4 most recent quarters is calculated from net profit (loss) to shareholders of the Company in the 4 most recent quarters since 4th Quarter of 2018 till 3rd Quarter of 2019 equal to (247,233,847.15) Baht

Number of registered and paid-up shares as of 13 December 2019 equal to 1,123,000,000 shares

$$= (247,233,847.15) / 1,123,000,000$$

$$= (0.22) \text{ Baht per share}$$

Earnings per Share after RO = (Earnings per Share before Right Offering - Earnings per Share after Right Offering) / Earnings per Share before Right Offering + number of newly issued ordinary shares)

Number of registered and paid-up shares as of 13 December 2019 equal to 1,123,000,000 shares

Number of newly issued ordinary shares allocating to existing shareholders in accordance with shareholding as 200,000,000 shares

$$= (247,233,847.15) / (1,123,000,000 + 200,000,000)$$

$$= (0.19) \text{ Baht per share}$$

Thus, earnings per share dilution can be computed as follows;

$$= ((0.22) - (0.19)) / (0.22)$$

$$= 15.12\%$$
